## About

I think of myself as a very hard-working and creative person. I'm open to learning new things in development. My current goals are to graduate while I improve my already acquired knowledge. Besides that I want to collect new experience at a bigger corporate aswell. I also want to learn new technologies to widen my skills.

## Work

- Intern Work Summer of 2017  
**Kanizsatel Kft., Nagykanizsa**  
Telecommunication tasks in warehouse and field. Installing and maintaining home networks.
- Web Development Internship Oct 2022 – Jan 2023  
**FERLING Kft. – Digital, Pécs**  
Developing Wordpress websites from scratch. I developed custom components for the team, and improved our overall site performance. Client support and site maintenance. Getting experience working in a real developer environment.
- Frontend Developer Jun 2023 – Sept 2024  
**Arteries Studio, Pécs**  
I worked on various projects while learning new technologies and improve my skills as a frontend developer. The projects I worked on include simple websites for clients, webshops made from scratch, and a complex net banking web application. The technologies I learned and finessed are Typescript, React, NextJs, Tailwind. Whilst working here I participated in smaller and larger teams, improving my social and team working abilities.
- Frontend Developer Sept 2024 – Sept 2025  
**Amelco UK**  
I created solutions for casinos and sports betting platforms on both web and mobile using JavaScript, TypeScript, React, and React Native. Contributed to scalable, high-performance products with a strong focus on user experience and responsive design. Also collaborated with cross-functional teams to deliver innovative features in a fast-paced environment.
