ABOUT ME

Frontend Engineer with 3+ years of professional experience building web and mobile applications with **React**, **TypeScript**, **Next.js** and **React Native**.

I enjoy turning complex requirements into intuitive, responsive user experiences and writing clean, maintainable code. While frontend development is my main focus, I'm comfortable working across APIs, backend services and databases, and I'm always interested in learning new technologies.

EXPERIENCE

● Frontend Developer and Consultant

Adesso Business Consulting Kft. | Feb 2026 – Present

Develop and maintain frontend features for an enterprise document-processing application using **SAPUI5**, including workflows for managing official documents.

Built a full-stack **Meeting Room Management application** from scratch as part of an internal mentor project using SAPUI5 Freestyle, SAP CAP, OData and SQLite,

Completed hands-on **SAPUI5, CAP and ABAP** learning journeys, expanding my understanding of frontend, backend and enterprise application development in a SAP environment.

Tech: JavaScript • SAPUI5 • SAP CAP • OData • ABAP • SQLite
Git

● Frontend Developer

Amelco UK | Sep 2024 – Sep 2025

Built web and mobile features for casino and sports-betting products using **React**, **React Native**, **JavaScript** and **TypeScript**.

Contributed to scalable, responsive applications with a strong focus on user experience, maintainability and frontend performance.

Worked closely with cross-functional teams to implement and deliver product features in a **fast-paced development environment**.

Tech: React • React Native • TypeScript • JavaScript • REST APIs
Git

● Frontend Developer

Arteries Studio | Jun 2023 – Sep 2024

Developed production frontend solutions across client websites, custom e-commerce project and a **complex net-banking web application**.

Worked primarily with **React**, **TypeScript**, **Next.js** and **Tailwind CSS** while contributing to projects ranging from smaller client sites to larger web applications.

Collaborated in both small and larger development teams throughout the development and delivery process.

Tech: React • TypeScript • Next.js • JavaScript • Tailwind CSS
